

TRIDENT

Guarding Forces and Surveillance Systems

OUR FOUNDATION

About Trident Guarding Forces and Surveillance Systems

Trident Guarding Forces and Surveillance Systems delivers comprehensive security solutions for both residential and commercial clients, blending expert manpower with advanced technologies for unmatched protection standards. The company provides highly trained security guards and customised surveillance services tailored to each client's unique needs.

With a steadfast commitment to vigilance, innovation, and excellence, Trident is dedicated to creating safe, secure environments—helping clients face evolving security challenges with confidence.

History: A Legacy of National Security

Our history is shaped by decades of frontline experience in high-level government security and intelligence roles, which now anchor the capabilities of our leadership team. One of our directors brings over 20 years of service in the intelligence and security wing of the Telangana Police. During this tenure, he:

- Led security arrangements for the Chief Ministers of the state as Chief of Security.
- Contributed to protection details for the Prime Minister of India, the President and Vice President of India, and visiting Heads of State (including the President of the United States and Secretary General of the United Nations).
- Conducted security audits for infrastructures of national and state importance, including the National Police Academy, the US Consulate in Hyderabad, HPCL, the India Government Mint, and key Collectorate Buildings.

This legacy of safeguarding critical assets and dignitaries now underpins the professional standards, risk-aware culture, and audit-driven approach that define our company's security services today.
